

COMMERCIAL RACK & COMMON VENTING

BENEFITS Rack System

LIGHTWEIGHT

- Constructed of anodized aluminum frame
- Utilizes the industry's lightest 199,000 BTU high efficiency condensing tankless heater

EXPANDABLE

- Multiple design & installation configurations (wall-mount, free-standing, back-to-back)
- Up to 1,592,000 BTU on a single rack system
- Able to link up to 20 heaters together with Multi-link system

REDUNDANCY

- Multiple combustion systems provide peace of mind
- Easily isolate a unit for maintenance which extends the life of the heaters

EASY FIELD INSTALLATION

- Reduce installation costs with three simple connections (cold water, hot water, and gas)

EASILY INTEGRATE STORAGE

- As the world's largest water heater manufacturer, we can easily integrate storage into the design

BENEFITS

Common Venting

Why be locked into venting kits? The TAKAGI common venting system utilizes fewer unique components so you can design your venting based on project requirements.

MORE DESIGN FLEXIBILITY

FEWER WALL PENETRATIONS

**ABLE TO USE SCHEDULE 40 PVC
ON INTAKE AND EXHAUST**

**HEATERS DON'T DE-RATE WHEN
COMMON VENTED**

**DESIGN DOESN'T OVERRIDE
REDUNDANCY BENEFITS**
