

# COMMERCIAL RACK SYSTEMS & COMMON VENTING

## **BENEFITS** **RACK SYSTEM**

### **LIGHTWEIGHT**

- Constructed of anodized aluminum frame
- Utilizes the industry's lightest 199,000 BTU high efficiency condensing tankless heater

### **EXPANDABLE**

- Multiple design & installation configurations (wall-mount, free-standing, back-to-back)
- Up to 1,194,000 BTU on a single rack system
- Able to link up to 20 heaters together with Multi-link system

### **REDUNDANCY**

- Multiple combustion systems provide peace of mind
- Easily isolate a unit for maintenance which extends the life of the heaters

### **EASY FIELD INSTALLATION**

- Reduce installation costs with three simple connections (cold water, hot water, and gas)

### **EASILY INTEGRATE STORAGE**

- As the world's largest water heater manufacturer, we can easily integrate storage into the design

## BENEFITS

# COMMON VENTING

Why be locked into venting kits? The TAKAGI common venting system utilizes fewer unique components so you can design your venting based on project requirements.

**MORE DESIGN FLEXIBILITY**

**FEWER WALL PENETRATIONS**

**ABLE TO USE SCHEDULE 40 PVC  
ON INTAKE AND EXHAUST**

**HEATERS DON'T DE-RATE WHEN  
COMMON VENTED**

**DESIGN DOESN'T OVERRIDE  
REDUNDANCY BENEFITS**
